- Membership since 2014
- WIE Membership since 2011
- Peer reviewer since 2012

# History to get the idea to create IEEE IAS Mongolian Students Chapter

To :  
Ariunbold Purvee, PhD., CE  
Associate Professor  
Mining Department, Geology and Mining School  
Mongolian University of Science and Technology  
Bagatoinra, 8th khuroo, Sukhbaatar Daurag, Ulaanbaatar, Mongolia

Subj.: Invitation to give a lecture and present a poster

Dear Professor Ariunbold Purvee

I refer to our previous correspondence regarding the travel award provided by the Industry Applications Society (IAS) of the Institute of Electrical and Electronics Engineers (IEEE) to attend the IEEE International Conference on Power Electronics, Drives and Energy Systems, PEDES 2016 <http://pedes2016.com/>, which will be held in Trivandrum, Kerala India, on December 14-17, 2016.

In conjunction with the PEDES 2016 conference, there will be a Student Workshop organized by the Kerala Section and the local Young Professional Committee on Dec 15, 2016. This event will be supported by the IAS Society and in addition, an IAS delegation will take part led by the IAS President.

I am pleased to invite you to join the IAS delegation and give a presentation about the Mongolian IEEE activity and the possibilities to extend the IEEE IAS activity in Mongolia. Since IAS will manage an information desk, too, you are kindly invited to present a poster there about the same topics. The poster will be presented at the information desk.

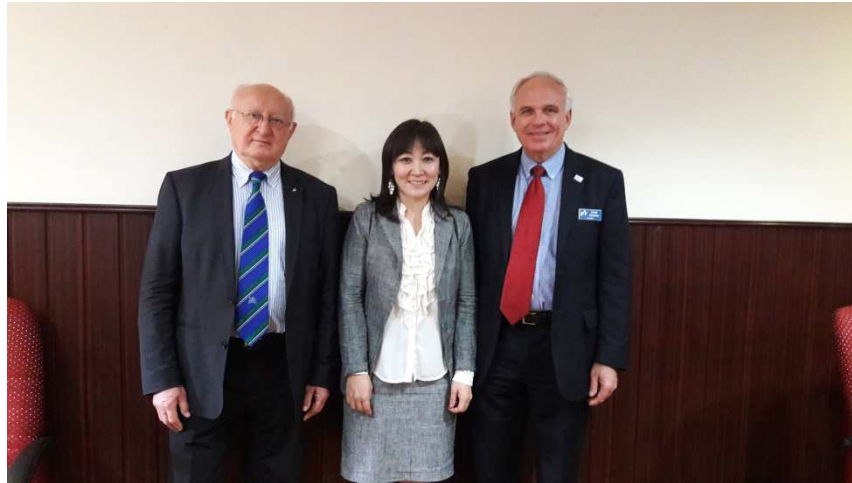

The above and the connected activities needed your presence at the PEDES 2016 Conference at least between December 14-17, 2016.

I would be very grateful if you could confirm this invitation and activities.

Yours sincerely

Magyar, Peter
