<Undisclosed List of Recipients>

Dear Colleagues,

I refer to the announcement below.

Since only one half of the funds have been used since May 2, I am pleased to inform you that the date of formation of the "new chapter" has been put by December 1, 2017.

That means, the IAS chapters which were formed after this cutting date are eligible to apply for the \$300 subsidy for visit IAS technical conferences. Please find the list of the supported conference in the email below.

Please consider, that the number of possible grants is limited due to budget restrictions.

Student applicants and student-led technical conferences (SAE and SCEMS) will be preferred in case we receive more applications than the available funds allows to approve all of them.

First come, first served.

Best regards

Peter

The program will be financed from the budgets of the IAS Chapters and Membership Department's Chapter Development Committee and Travel Awards and Events Standing Committee, <https://ias.ieee.org/chapters-membership/cmd-roster.html> .

- Applications will be managed on a first come, first served basis by using the attached application form.
