

Our state Kerala has gone through the most disastrous days in history because of the heavy rain and flood which affect nearly 8 of 14 districts in Kerala during the month August, 2018. At Relief camps, the selfless Service offered by our students includes assembling and supply of LED bulbs and Power banks; leaflets on precaution to be taken while returning home from camp; and cleaning services at most flood affected areas at Allapetty District in Kerala.

Leaflets and its distribution to camp officer

Powerbank and LED bulb production/assembling
