### Subj.: TPEC 2019

I am writing to inform you about the conference that our student chapter is organizing each year, IEEE Texas Power and Energy Conference (TPEC), and this year also we will have the third one.

The TPEC 2019 is technically co-sponsored by the IEEE Power and Energy Society (PES), the IEEE Industry Applications Society (IAS), and the IEEE Power Electronics Society (PELS) and will be held at Texas A&M University, College Station, Texas, USA, on February 7-8, 2019.

This two-day conference will bring together participants from industry and academia to present and discuss the latest research progress and challenges in the power and energy industry.

TPEC 2019 invites authors to submit high-quality research papers and posters on all areas of electric power and energy engineering, primarily focusing on the following:

- **Power Systems**
- **Power Electronics**
- **Machines, Electromechanics and Drives**
- **Cyber and Physical Security**
- **Renewable Energy and Smart Grid Technologies**
- **Energy Market and Demand Response**

Papers accepted and presented by the author at the conference will be submitted for publication through IEEEExplore. Poster presentations are primarily for the undergraduates and will not be published.

**Submitted papers should follow the IEEE format and may be up to 6 pages in length.**

**Important dates are as follows:**
