Dear Pablo,

Thank you for taking the time to speak at our local chapter in San Diego yesterday. Your inspiring presentation on “[RESULTS OF THE JUNO JUPITER MISSION](#)” and the depth of knowledge on this field based on your decades of research and engineering expertise in the top nation organization, NASA, were well-received by the audience in the meeting.

We all agreed that your lecture was the most exciting talk we had in the past few years.

Thank you!  
Vahid

San Diego IEEE IAS Chapter Chair, R6 Area Chair
