[Costas Stasopoulos](#)

Manager at the Electricity Authority of Cyprus (EAC), Nicosia, Cyprus
IEEE MGA Vice Chair

Networking successfully in IEEE

Power Point Presentation

Agenda:

What is networking? Why networking? Benefits of networking. Networking the IEEE way. Information and knowledge sharing. Connections. Promotion of you and your organization. Credibility, reputation. Opportunities. Self esteem and confidence. Social media networking. How to approach? How to make IEEE connections? How to continue networking in IEEE?

Bio:

Costas Stasopoulos was born in Cyprus, a European Union member State. He then moved to the United States where he studied Electrical Engineering at the University of Rutgers, New Jersey, USA. Then he received a Master in Business Administration (MBA), Management concentration, from the Maastricht Business School of Management, Netherlands. Upon completion of his studies he worked for three years for SITA, the world's leading service provider of integrated IT business solutions and communication services of the air transport industry. Then he moved on to the Electricity Authority of Cyprus (EAC), the major electricity provider of Cyprus, where he held various Engineering Specialist and Management positions. he currently holds the position of Planning Manager at the Transmission Department. His main interests include Renewable Energy, Smart Metering, Drones and Smart Grids.

He is one of the founding members of the Cyprus Section, moving through the levels of hierarchy to the position of Chair. He held the positions of IEEE Region 8 Secretary from 2007-2012, IEEE Region 8 Director-Elect 2013-2014, IEEE Region 8 Director 2015-2016 and IEEE Region 8 Past Director 2017-2018. He took active part in numerous IEEE committees both Regional and International. He is at present the IEEE MGA Vice Chair (2020 and 2021).

[Yanni Zhong](#), PhD, CEng, Advanced Engineer at Siemens Gamesa, UK | Public Relations Committee Chair, IAS CMD | IAS R8 Europe STB Area Chair 01/2016-01/2018. Founder Chair of the University of Strathclyde SB IAS/PELS Chapter.

How to Practice Engineering Thinking

Power Point presentation

Abstract: What is engineering thinking? Is it common sense, trial and error, or simply being smart and creative? Different people have different opinions, but what we don't realize is we apply engineering thinking subconsciously in our daily life. In this presentation, I would like to share my personal view of engineering thinking and how I applied it to my study and job.
