

If you missed the virtual 2021 IEEE Electrical Safety Workshop, “ESW 2021”, it’s not too late to register and access the entire event. All recorded sessions are accessible to view online until April 10. The conference record of the technical papers and all presentation slides are downloadable. The Products & Services Expo showcases the latest innovations in technology and services. Register by April 10 to access and participate in ESW 2021.

Since 1992, the IEEE IAS Electrical Safety Workshop has been the premier forum focused solely on changing and advancing the electrical safety culture impacting risk of electrical injury and fatality in the workplace. This year, the ESW was virtual and will return to an in-person format in 2022. Here are 4 reasons why you should consider registering and participating by accessing the recorded content of ESW 2021. To learn more and to register, search for “[IEEE IAS ESW 2021](#)”

**#1 –To Gain Access to the Industry’s Top Safety Experts...All in one (Virtual) Place.** Attendees are people who share a passion for advancing the state of the art in electrical safety. You will hear viewpoints from some of the industry’s top safety professionals who have first-hand expertise through their participation with groups such as IEEE, NFPA, CSA, UL, NEMA, IEC and OSHA.

**#2 –You can Visit with vendors** as they showcase their latest offerings to reduce the risk of electrical injury. Visit all exhibitors and complete your passport to be qualified for inclusion in a \$450 Amazon Gift Card raffle.

**#3 –The Affordability and Flexibility.** Moving to a virtual event (due to COVID) has presented the opportunity to offer specially discounted rates: Only \$175 for an IEEE Member; and only \$120 for an IEEE Life Member or Student. There are also no associated travel expenses this year, making it much more attractive for employers to support. In addition, the ability to access all of the recorded content until April 10, allows you the flexibility to review the information at other times most convenient to you, and your employer!

**#4 – The Content.** With more than 30 technical presentations addressing leading edge topics in electrical safety, and an electronic copy of the Conference Record which includes all technical papers & presentation slides...you don’t want to miss it! Register by April 8, 2021 to capture the learnings from ESW 2021.

Save the date and plan to attend ESW 2022 in Jacksonville, Florida USA March 7-11, 2022.
